

NomadiX

from Spinifex
comes a caravan
that's a true nomad...

At Spinifex Caravans, we know that some adventurers need to just drop everything and go—and sometimes that means today, right now! We see that as no reason to be deprived of all the quality and unique capabilities of one of our off-road caravans.

That's why we've introduced the NomadiX: a fully featured van that you can order quickly and easily. Or you may even find a NomadiX that suits you, sitting in stock, ready to roll... just like a true nomad should be!

NomadiX
